1385402	James is a solid TF, and goes above and beyond what I would expect of a TF. I was especially impressed when, during section, I asked a kind of speculative, off-hand question that he said was interesting and that didn't know the answer to but said he'd get back to me about it. Next class, I had totally forgotten about the question I had asked. But James brought it up, said that he had run some simulations, and what the results said for answering my question. I thought that was above and beyond. He did not need to go out of his way to answer this question that I had, but he did, and I think that demonstrates his strong dedication to teaching.
